Important Techniques to Crack the Syllabus of CSS/PMS

1. First of all, read the syllabus of every subject of your course whether it is compulsory or optional. Read it twice, thrice ...
2. Divide your syllabus/topics in smaller parts.
3. Give microscopic analysis of every smaller part of your syllabus.
4. Integrate the microscopic analysis of your syllabus.
5. Read past papers and link the previous year's questions with relevant topic and diagnose the questions format of that specific topic.
6. Focus on previous year's domain of questions of your subject.
7. Read important journals and reports on reoccurring or important topics like; Poverty, Education, National Challenges, National Crisis, International Crisis, Budget analysis, International Conferences etc.
8. Adopt a universal method of memorization , WRITE, WRITE & WRITE...!
9. Attend maximum evaluations.

Best Regards.

Jahangir Ahmad Khan

Assistant Commissioner
